TOURIST INFORMATION

InfoPoint Trieste: Piazza Unità, 4b | ph: +39 335 667 5029

Visit the Region’s official site: <http://www.turismofvg.it/>; <http://www.turismofvg.it/Locality/Trieste>

6. CELLPHONES AND INTERNET CONNECTION

Several companies provide cellular phone service as well as high speed mobile internet connection:

| | | |
|----------|-----|--|
| TIM | 119 | www.tim.it |
| Vodafone | 190 | www.vodafone.it |
| Wind | 155 | www.wind.it |
| 3 | 133 | www.tre.it |

You will find various offers on purchasing a phone or calling plans depending on your needs and habits. You are not obliged to purchase your phone from your cell provider.

Once you have a phone, you need to purchase a SIM card (minimum € 5) in order to activate your number and charge some credit in order to start using it.

Note that you will not pay to receive calls as long as you are in Italy (roaming fees apply if you answer calls while you are outside Italy), but be careful when you are in some areas of the *Carso* (the hills above Trieste) and sometimes even along the coast around *Barcola*. Since Trieste is on the border with Slovenia, your phone may automatically drop your Italian network signal and pick up a Slovenian or even a Croatian network, even though you are still in Italy. In this case you will be charged a roaming fee if you answer a call (Croatian roaming fees are particularly high). So we suggest you to turn the operator selection to manual to solve this

problem. In case you have an EU sim card, the EU "**roam like at home**" rules apply, which means that when you use your mobile phone while **travelling outside Italy** in any EU country you don't have to pay any additional roaming charges. You benefit from these rules when calling (to mobile and fixed phones), sending text messages (SMS) and using data services while abroad. For more information check the following link: http://europa.eu/youreurope/citizens/consumers/telecoms-internet/mobile-roaming-costs/index_en.htm

7. ELECTRICITY AND WATER QUALITY

Electricity in Italy, as in the rest of Europe, comes out at 220 volts alternating at 50 cycles per second. Be sure to provide yourself with plug adapters, transformers or Power Converters.

The water in Trieste is safe to drink.

It contains limestone which can be difficult on your dishes, sinks, appliances and laundry. Look for products that say "Elimina calcare" to assist with this problem. We recommend:

- For Washing machines – add Calfort;
- For Dishwashers – add "sale speciale" (special salt). It can be found near the dishwasher detergents;
- For Ironing: If you use a steam iron you may need to use distilled water to keep your iron functioning properly.

8. WEATHER

Check the following websites for updated weather forecast: [Meteo Trieste](#) and [Osmer Fvg](#).

Most of the year, the coastline around Trieste enjoys a mild and sunny climate.

Winters are generally mild and sunny. These pleasant Mediterranean weather conditions are sometimes interrupted by a very changeable cold weather generated by a northerly wind called **Bora**, which can bring unseasonably cold weather for a few days in winter and early spring. The average temperature in wintertime is 8° C, 16° C in autumn and 15° C in spring.

Summers are hot and dry. For example, there are on average 300 sunny days, either entirely or partly sunny, in one year. With its 2500 hours of sunshine per year, the Trieste coastline is statistically one of the sunniest spots, not only in Italy but also in Europe as a whole. The mitigating effect of the sea accounts for an average temperature around 24°C.

Curiosity: "Bora" the cold wind

Derived from "boreas" (Greek: "boréas") the Bora is a strong northerly wind that hits the Trieste gulf from EAST-NORTHEAST direction. In town, the bora can attain an average speed of 50-80 km/h; its strongest gusts may reach a speed of 170-180 km/h.

We suggest you always close windows before leaving your apartment.

13. HISTORICAL CAFES

Trieste is famous worldwide for its coffee.

Ordering a coffee in Trieste may seem a bit difficult, find below some tips to help you order exactly what you want to drink (only in Trieste)!

Nero: a classic espresso, strong coffee in a very small cup;

Capo (or cappuccino): espresso with hot milk in a very small cup;

Capo in "b": same as above but in a small glass (bicchiere) and with more foam;

Caffelatte: lots of milk and a bit of coffee in the larger tea-sized cup;

Caffè corretto: espresso with a shot of alcohol;

Deca: if you want a decaffeinated coffee, just add *deca* to any of the above

Some historical cafes that are worth visiting:

CAFFÉ TOMMASEO (Riva Tre Novembre, tel. 040 362666), located on the sea front, has been a meeting place for businessmen and politicians since 1830. The interior design, sophisticated and elegant with sober and discreet furnishing featuring mirrors imported 100 years ago from Belgium and Thonet-style wooden chairs.

CAFFÉ SAN MARCO (Via Battisti 18, tel. 040 363538), was opened on January 3rd 1914 and completely destroyed during the First World War. In the 1920s after being rebuilt it became the meeting place of many local intellectuals such as Saba, Svevo and Giotti. The interior, partly revised in the 1930s, recalls the typical atmosphere of a Viennese Café.

CAFFÈ DEGLI SPECCHI founded in 1839 and situated in the ground floor of Palazzo Stratti in Piazza Unità d'Italia which was and still is the heart of the town. Because of its particular position, Caffè degli Specchi has ever been a privileged place to follow all the historical-political-economical and cultural events of Trieste.
